CASE NO: Z2006034

Staff and Zoning Commission Recommendation - City Council

Date: March 23, 2006

Zoning Commission Meeting Date: February 21, 2006

Council District: 3

Ferguson Map: 650 F7

Appeal:

Applicant:

Robert N. Hamilton

Owner:

Dr. Martin Garcia

Zoning Request: From "I-1" General Industrial District to "C-2" Commercial District

Lot D and 270, Block 3, NCB 9488

Property Location: 6730 South Flores Street and 103 Lorita Drive

Intersection of South Flores Street and Lorita Drive

Proposal: Office and retail uses

Neighborhood Association: None

Neighborhood Plan: None

TIA Statement: A Traffic Impact Analysis is not required. Based on current zoning and buildings, the property would have generated approximately 65 daily vehicle trips. The proposed C-2 development is projected to generate 163 daily vehicle trips and redeveloped with new structures, the property could generate 403 daily trips.

Staff Recommendation:
Approval

The subject property located at 6730 South Flores currently contains 3 office buildings of 1,000 to 1,200 square feet. The first building was built in 1978, with subsequent buildings added to the property in 1983 and 1997. The other subject property is located at 103 Lorita Drive and is currently undeveloped.

The subject properties were zoned "J" Industrial District under the provisions of the 1938 zoning ordinance. Upon the 2001 conversion to the Unified Development Code, the subject properties were reclassified as "I-1" Industrial District. The "I-1" zoning classification is not compatible with the commercial character of South Flores Street, a Secondary Arterial "Type B" Road, and the adjacent single-family residences. A down-zoning of these properties would be desirable.

The applicant is requesting the "C-2" Commercial District zoning classification in order to make the property marketable for tenants. "C-2" would allow a range of uses, including offices, that are compatible with the area. Additionally, South Flores Street is capable of serving the amount of traffic "C-2" uses would create.
